## *Abstract*

Steve Wennerstrom is an expert on the history of women's bodybuilding. He has served as the International Federation of Bodybuilding (IFBB) Women's Historian. However, his interest in women's sports extends beyond bodybuilding and the collection reflects that reality. Almost every sport that women have played is represented, making the Steve Wennerstrom Papers Part 2 an invaluable resource to all researchers with an interest in women's sports. Wennerstrom graduated from Cal State Fullerton and ran track. He also created one of the first women's track publications, *Women's Track and Field World*. The collection covers everything from strongwomen and circus performers to bodybuilding and powerlifting. It is truly an amazing knowledge base for bodybuilding and sports fans everywhere, especially those interested in the rise of women's sports throughout the recent decades.
